INGREDIENT	SOURCING TYPE	HOW IT HELPS	FUNCTION
ALOE BARBADENSIS LEAF JUICE POWDER	natural	helps moisturize and soothe skin	Skin Conditioner
(ALOE VERA EXTRACT)  AQUA	natural	dissolves hydrosoluble ingredients	Solvent
		such as fruit extracts	
AROMA	mixture from naturally derived and synthetically produced components	allows a multisensory experience: yummy scent and taste	Flavor
ASCORBYL PALMITATE (VITAMIN C)	naturally derived	stabilizes the balm by protecting against degradation and spoilage of	Antioxidant
BENZYL ALCOHOL	synthetically produced	natural ingredients in particular as aroma ingredient which occurs	Flavor
		i.e. in fruits it supports the pleasant smell of the formulas	
BENZYL BENZOATE	synthetically produced	as aroma ingredient which occurs i.e. in fruits it supports the pleasant smell of the formulas	Flavor
BHT	synthetically produced	efficiently stabilizes the balm by protecting against degradation and spoilage of natural ingredients in	Antioxidant
BISABOLOL	synthetically produced	particular anti-inflammatory substance which	Skin Conditioner
BIS-DIGLYCERYL	partly synthetically produced	occurs in ethereal camomile oil emollient that provides the lip skin	Skin Conditioner
POLYACYLADIPATE-2 BUTYL METHOXYDIBENZOYL-	partly naturally derived synthetically produced	with a luminous appearance shields UV rays effectively to protect	UV Filter
METHANE		the lip skin from damage and premature aging	
BUTYROSPERMUM PARKII BUTTER (SHEA BUTTER)	naturally derived	nourishes and soothes the skin	Skin Conditioner
CANDELILLA CERA (CANDELILLA WAX)	naturally derived	has a smoothing and water- retaining (protecting) effect	Skin Conditioner
CAPRYLIC/CAPRIC TRIGLYCERIDE	naturally derived	light skin-caring oil with dispersing properties	Skin Conditioner
CERA ALBA (BEESWAX)	natural	skin-friendly wax used as structuring and viscosity-controlling agent that	Skin Conditioner
		effectively protects the lip skin from drying out	
CETEARYL ALCOHOL	naturally derived	consistency-controlling agent with moisturizing properties	Skin Conditioner
CETYL RICINOLEATE	naturally derived	works as a conditioner, stabilizer and film-forming agent that helps to	Skin Conditioner
CETYL PALMITATE	naturally derived	keep the lip skin moisturized  consistency modifier with water-	Skin Conditioner
CI 15850	synthetically produced	repellent properties  color pigment to provide red color	Color Agent
CI 15985	synthetically produced	color pigment to provide yellow-	Color Agent
CI 19140	synthetically produced	orange color tones  color pigment to provide yellowish	Color Agent
CI 42090	synthetically produced	color pigment to support bluish	Color Agent
	naturally derived	color pigment to achieve red-brown	Color Agent
		color tones	
CI 77492 	naturally derived	color pigment to achieve yellowish color tones	Color Agent
CI 77499	naturally derived	color pigment to tone different colors darker	Color Agent
CI 77891	naturally derived	color pigment to brighten different colors	Color Agent
CITRONELLOL	can be naturally derived or synthetically produced	a flavor component	Flavor
CITRULLUS LANATUS FRUIT EXTRACT (WATERMELON EXTRACT)	naturally derived	improves the lip skin condition	Fruit Extract Skin Conditioner
COCOGLYCERIDES (COCONUT OIL)	naturally derived	skin-friendly, that protects the lip skin from drying out and provides smooth lip feeling	Skin Conditioner
COPERNICIA CERIFERA CERA	natural	stabilizes the stick by binding the oil and at the same time it protects the	Skin Conditioner and Film-Former
DIMETHIOONE	overthestically produced	skin from drying out by building a protective film on the lips	Ckin Conditioner
DIMETHICONE	synthetically produced	provides a special smooth and silky lip skin feeling	Skin Conditioner
ETHYLHEXYL METHOXYCINNAMATE	synthetically produced	shields from UV rays (UV-B) effectively to protect the lip skin from damage	UV Filter
ETHYLHEXYL SALICYLATE	synthetically produced	shields from UV rays (UV-A and B) effectively to protect the lip skin	UV Filter
ETHYLHEXYL STEARATE	partly synthetically produced	from damage and premature aging enables smooth and easy gliding on	Skin Conditioner
EUGENOL	partly naturally derived can be naturally derived or	the lips a flavor component	Flavor
FRAGARIA ANANASSA	synthetically produced naturally derived	improves the lip skin condition	Fruit Extract Skin
FRUIT JUICE (STRAWBERRY EXTRACT)			Conditioner
GERANIOL	can be naturally derived or synthetically produced	a flavor component	Flavor
GLYCERIN	naturally derived	provides the lip skin with moisture and protects from drying out	Moisturizer
HELIANTHUS ANNUUS SEED CERA	natural	coats the skin with a thin film that seals the water in and keeps it	Skin Conditioner and Film-Former
(SUNFLOWER SEED OIL)		hydrated longer, bringing viscosity and stability to the stick	
HOMOSALATE	synthetically produced	shields from UV rays effectively to protect the lip skin from damage and premature aging	UV Filter
HYDROGENATED CASTOR OIL (CASTOR OIL)	naturally derived	protects the skin from drying out by building a protective film on the lips	
		and at the same time it stabilizes	Skin Conditioner and Film-Former
OIL	naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it	
OIL (RAPESEED OIL)	,	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick	Film-Former  Skin Conditioner and Film-Former
OIL (RAPESEED OIL) HYDROLYZED PEARL	naturally derived  naturally derived  naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity	Film-Former Skin Conditioner and
OIL (RAPESEED OIL) HYDROLYZED PEARL HYDROLYZED SILK	naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition	Film-Former  Skin Conditioner and Film-Former  Skin Conditioner
OIL (RAPESEED OIL) HYDROLYZED PEARL HYDROLYZED SILK LIMONENE	naturally derived naturally derived can be naturally derived or	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition	Film-Former  Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component	Film-Former  Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Flavor
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component	Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)  MICA  NEOHESPERIDIN DIHYDROCHALCONE	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced  naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component  improves the lip skin condition  supports the lip skin condition  improves the lip skin condition  supports the sweet taste of the product  shields from UV rays effectively to	Film-Former  Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin Conditioner
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)  MICA  NEOHESPERIDIN DIHYDROCHALCONE  OCTOCRYLENE	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced  naturally derived  naturally derived  synthetically produced	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component  improves the lip skin condition  improves the lip skin condition  stable of the lip skin condition  imparts a sparkly white appearance supports the sweet taste of the product  shields from UV rays effectively to protect the lip skin from damage and premature aging  enables a soft product application	Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin Conditioner  Cosmetic Colorant  Flavor/Taste Enhancer
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)  MICA  NEOHESPERIDIN DIHYDROCHALCONE  OCTOCRYLENE	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced  naturally derived  synthetically produced  synthetically produced  synthetically produced  naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component  improves the lip skin condition  improves the lip skin condition  improves the lip skin condition  imparts a sparkly white appearance  supports the sweet taste of the product  shields from UV rays effectively to protect the lip skin from damage and premature aging  enables a soft product application and soft texture; makes the skin smooth and supple	Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin Conditioner  Cosmetic Colorant  Flavor/Taste Enhancer  UV Filter  Skin Conditioner
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)  MICA  NEOHESPERIDIN DIHYDROCHALCONE  OCTOCRYLENE  OCTYLDODECANOL  PANTHENOL	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced  naturally derived  naturally derived  synthetically produced  synthetically produced  partly synthetically produced  partly naturally derived	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component  improves the lip skin condition  improves the lip skin condition  imparts a sparkly white appearance  supports the sweet taste of the product  shields from UV rays effectively to protect the lip skin from damage and premature aging  enables a soft product application and soft texture; makes the skin smooth and supple  provides the lip skin with moisture and protects from drying out	Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin Conditioner  Cosmetic Colorant  Flavor/Taste Enhancer  UV Filter
OIL (RAPESEED OIL)  HYDROLYZED PEARL  HYDROLYZED SILK  LIMONENE  LINALOOL  MANGIFERA INDICA JUICE (MANGO EXTRACT)  MICA  NEOHESPERIDIN DIHYDROCHALCONE  OCTOCRYLENE  OCTYLDODECANOL  PANTHENOL  PERFUME	naturally derived  naturally derived  can be naturally derived or synthetically produced  can be naturally derived or synthetically produced  naturally derived  synthetically produced  synthetically produced  synthetically produced  partly synthetically produced  partly naturally derived  synthetically produced  synthetically produced  partly synthetically produced  synthetically produced	the stick by binding the oil  coats the skin with a thin film that seals the water in and keeps it hydrated longer, bringing viscosity and stability to the stick  improves the lip skin condition  improves the lip skin condition  a flavor component  a flavor component  improves the lip skin condition  imparts a sparkly white appearance  supports the sweet taste of the product  shields from UV rays effectively to protect the lip skin from damage and premature aging  enables a soft product application and soft texture; makes the skin smooth and supple  provides the lip skin with moisture and protects from drying out  allows a multisensory experience: yummy scent and taste	Skin Conditioner and Film-Former  Skin Conditioner  Skin Conditioner  Flavor  Flavor  Fruit Extract Skin Conditioner  Cosmetic Colorant  Flavor/Taste Enhancer  UV Filter  Skin Conditioner  Moisturizer  Flavor
